  font-weight: bold;
}
```

Main.js

Code:

```
import BankAccount from './bankAccount.js';
```

```
let currentAccount = null;
```

```
let accounts = JSON.parse(localStorage.getItem('accounts')) || {};
```

```
Object.keys(accounts).forEach(accountName => {  
  const account = accounts[accountName];  
  accounts[accountName] = new BankAccount(account.accountHolder, account.balance);  
});
```

```
const loginSection = document.getElementById('login-section');  
const accountSection = document.getElementById('account-section');  
const accountNameInput = document.getElementById('account-name');  
const depositInput = document.getElementById('deposit-amount');  
const withdrawInput = document.getElementById('withdraw-amount');  
const balanceDisplay = document.getElementById('balance');  
const accountHolderNameDisplay = document.getElementById('account-holder-name');
```

```
document.getElementById('login-btn').addEventListener('click', () => {  
  const accountName = accountNameInput.value.trim();  
  if (accounts[accountName]) {  
    currentAccount = accounts[accountName];  
    loginSection.style.display = 'none';  
    accountSection.style.display = 'block';  
    accountHolderNameDisplay.innerText = currentAccount.accountHolder;  
    balanceDisplay.innerText = currentAccount.balance;  
  } else {  
    alert('Account not found. Please create an account first.');
```

```
});  
  
document.getElementById('create-account-btn').addEventListener('click', () => {
```

```
const accountName = accountNameInput.value.trim();
if (accountName && !accounts[accountName]) {
  const newAccount = new BankAccount(accountName);
  accounts[accountName] = newAccount;
  localStorage.setItem('accounts', JSON.stringify(accounts));
  alert('Account created successfully! You can now log in.');
```

} else {

alert('Invalid name or account already exists.');

}

```
});
```

```
document.getElementById('deposit-btn').addEventListener('click', () => {
  const amount = parseFloat(depositInput.value);
  if (isNaN(amount) || amount <= 0) {
    alert('Please enter a valid deposit amount.');
```

} else {

const message = currentAccount.deposit(amount);

balanceDisplay.innerText = currentAccount.balance;

alert(message);

localStorage.setItem('accounts', JSON.stringify(accounts));

}

```
});
```

```
document.getElementById('withdraw-btn').addEventListener('click', () => {
  const amount = parseFloat(withdrawInput.value);
  if (isNaN(amount) || amount <= 0) {
    alert('Please enter a valid withdrawal amount.');
```

} else {

const message = currentAccount.withdraw(amount);

```

    balanceDisplay.innerText = currentAccount.balance;
    alert(message);
    localStorage.setItem('accounts', JSON.stringify(accounts));
  }
});

document.getElementById('logout-btn').addEventListener('click', () => {
  loginSection.style.display = 'block';
  accountSection.style.display = 'none';
  accountNameInput.value = '';
});

```

bankAccount.js:

Code:

```

export default class BankAccount {
  constructor(accountHolder, initialBalance = 0) {
    this.accountHolder = accountHolder;
    this.balance = initialBalance;
  }

  deposit(amount) {
    if (amount > 0) {
      this.balance += amount;
      return `Deposited ${amount}. New balance: ${this.balance}`;
    }
    return 'Deposit amount must be positive.';
  }
}

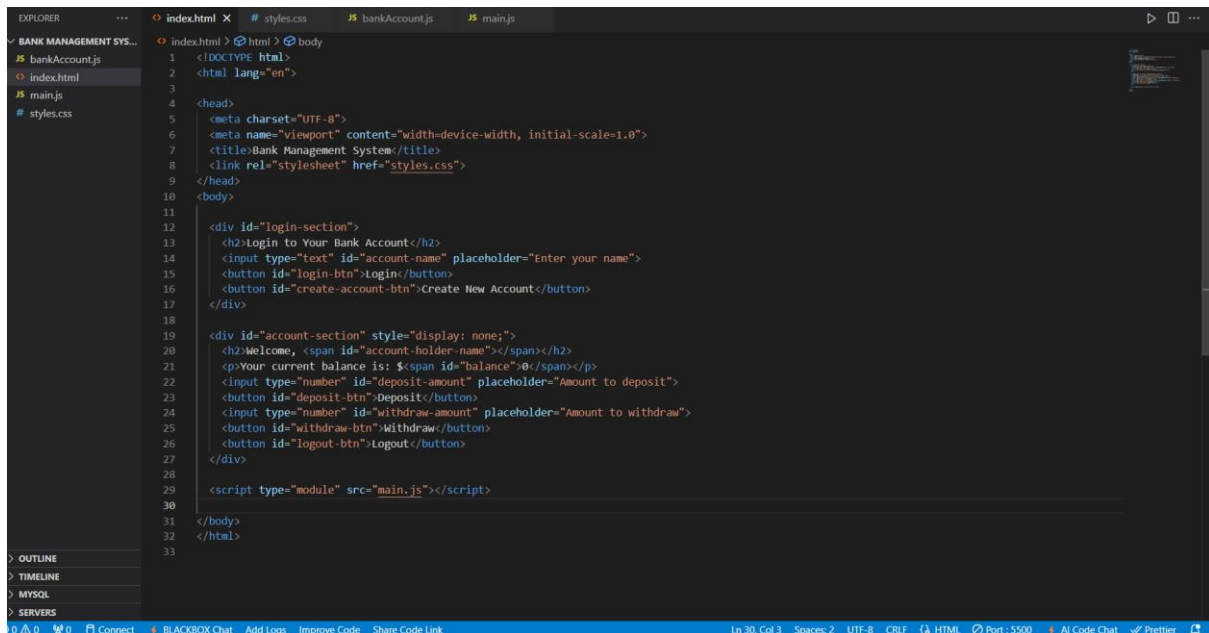

```

```
withdraw(amount) {  
  if (amount > 0 && this.balance >= amount) {  
    this.balance -= amount;  
    return `Withdrew ${amount}. New balance: ${this.balance}`;  
  } else if (amount <= 0) {  
    return 'Withdrawal amount must be positive.';  
  } else {  
    return 'Insufficient balance for this withdrawal.';  
  }  
}
```

```
checkBalance() {  
  return `Current balance: ${this.balance}`;  
}  
}
```

OUTPUTS:

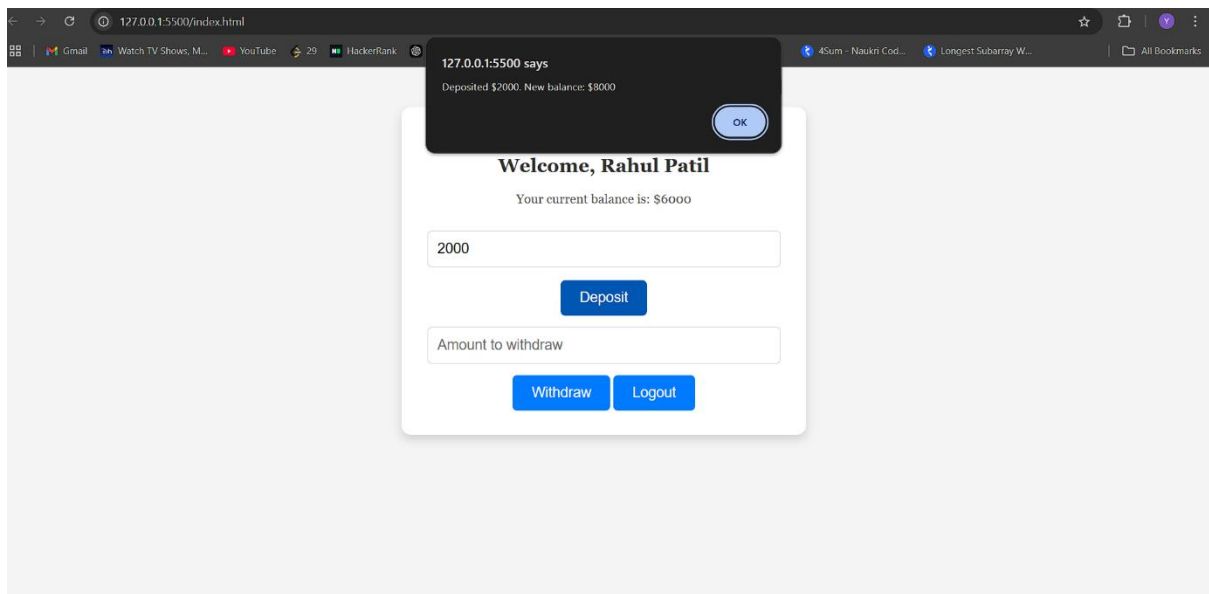

ES6 module Structure:

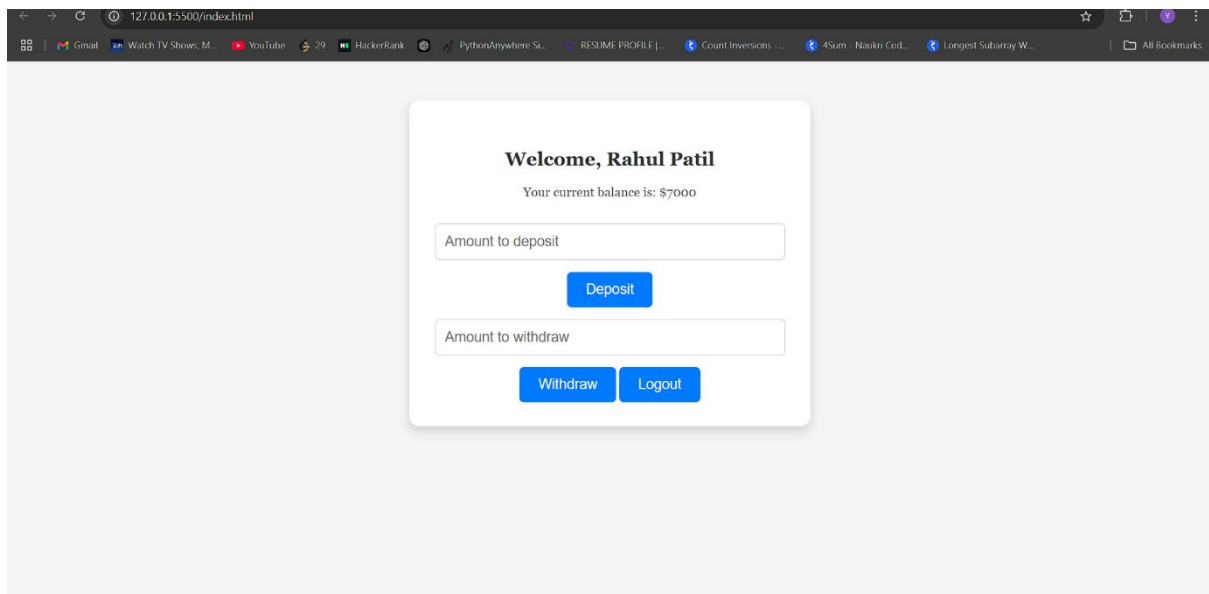

```

Functional Interactions:

Account creation:

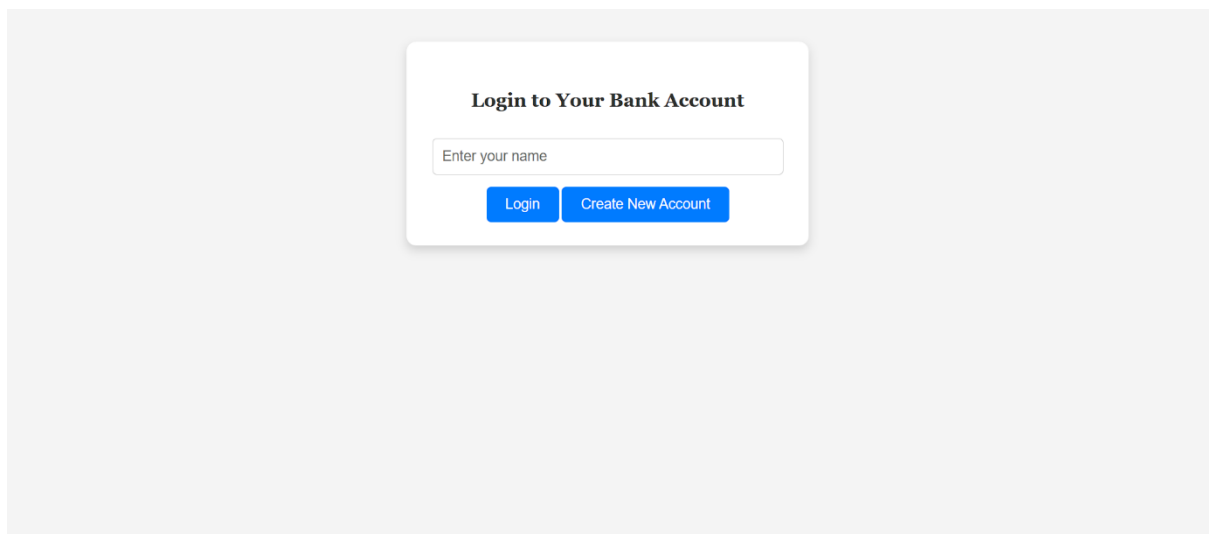

Current Balance:

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:5500/index.html". The browser's tab bar includes several open tabs: Gmail, Watch TV Shows, M..., YouTube, 29, HackerRank, PythonAnywhere S..., RESUME PROFILE [...], Count Inversions ..., 4Sum, Naukri Cod..., and Longest Subarray W... The main content area of the browser displays a banking interface. At the top, it says "Welcome, Rahul Patil" and "Your current balance is: \$7000". Below this, there is a text input field labeled "Amount to deposit" and a blue button labeled "Deposit". Underneath that is another text input field labeled "Amount to withdraw" and two blue buttons labeled "Withdraw" and "Logout".

Deposit:

The screenshot shows a web browser window displaying a login form. The form is titled "Login to Your Bank Account". It contains a text input field with the placeholder text "Enter your name". Below the input field are two blue buttons: "Login" and "Create New Account".

Withdrawal:
